BOAT SALES

LAKELAND LEISURE ESTATES

Description

Discover K2tare, an exceptional 58ft square cruiser stern narrowboat built by Bickerstaffe in 2024. With just one owner from new and presented in as-new condition, K2tare combines high-quality craftsmanship, modern styling and an impressive specification to create a truly special boat.

Offering four berths and one bathroom, K2tare features a practical reverse layout designed for comfortable cruising and extended stays aboard. From the well-equipped galley and inviting saloon to the versatile Pullman dinette and comfortable fixed double bedroom, every area has been thoughtfully designed with both comfort and practicality in mind.

The galley is finished with quality quartz worktops and features a Thetford Midi Prima MKIII oven and grill, Thetford three-burner hob, Russell Hobbs microwave, Shoreline 12V fridge, separate Abode freezer and Beko 7kg washing machine. A Belfast-style sink and generous high- and low-level cupboards and drawers provide excellent storage and functionality.

The saloon offers a welcoming space to relax after a day on the water, with an engineered oak floor, Ascot two-seat sofa with integrated storage, Samsung 32" Smart TV and Roku soundbar. A Morsø Squirrel 4.6kW multi-fuel stove creates a warm and cosy atmosphere, while additional storage ensures the space remains practical and uncluttered.

The raised, fully upholstered Pullman dinette provides a comfortable dining area and converts into a guest double berth when required. Side hatches to both port and starboard bring additional light and ventilation, with removable Perspex inserts and dedicated rain covers for added practicality.

At the stern, the fully pram-covered square cruiser stern provides an excellent outdoor space for enjoying time afloat, with upholstered seating and storage beneath. The Morse controller and control panel are conveniently positioned, with steps leading directly into the galley.

The bedroom features a fixed 4'6" double bed, double wardrobe and excellent additional storage at both high and low level. Two lined steel doors lead onto the good-sized, cratch-covered well deck, which includes upholstered seating to both port and starboard – an ideal spot to enjoy the surroundings.

The stylish walk-through bathroom includes a Thetford C263 ceramic-bowl cassette toilet, with three cassettes supplied, a 900mm quadrant shower with glazed doors, Bristan Zing Cool Touch mixer, Lecico inset wash basin and vanity unit, plus a heated towel rail.

K2tare is powered by a Vetus M-Line M445KP52AD 42HP diesel engine, paired with a Newage PRM 150 D2 2:1 gearbox and Vetus bow thruster. With approximately 620 engine hours, the engine was last serviced at 494 hours on 11 June 2026. The engine remains under warranty until 30 April 2029, while the remaining Vetus components are covered until 30 April 2027.

The boat is also exceptionally well equipped for comfortable cruising and off-grid adventures, benefiting from 480W of solar power and a substantial 680Ah domestic battery bank, alongside a 400-litre stainless steel water tank. Full RCD documentation and service history are included.

Built with an Elton Moss hull featuring a semi-Josher bow and Bickerstaffe fit-out, K2tare showcases the quality and attention to detail expected from a premium modern narrowboat.

With its one-owner history, low engine hours, extensive specification and as-new presentation, K2tare represents a fantastic opportunity to acquire a virtually new, high-specification narrowboat without the wait for a new build. Whether you're looking for relaxed weekends afloat, longer cruising adventures or a comfortable home away from home, K2tare is ready to set off on its next journey.
