BOAT SALES
LAKELAND LEISURE ESTATES

Description

Step aboard this brand new, unregistered 2026 Cruiser Stern Narrowboat, a beautifully finished four-berth boat built and fitted out by Collingwood Boat Builders. With a contemporary reverse layout, generous living space and an impressive specification throughout, this is a fantastic opportunity to become the very first owner of a stylish, ready-to-enjoy narrowboat.

Entering from the spacious cruiser stern, the reverse layout begins with a modern, well-equipped galley. Stylish quartz worktops provide plenty of preparation space, complemented by a four-burner surface-mounted gas hob, eye-level oven and grill, microwave, 12V fridge with freezer box and a full-size washer-dryer. A stainless-steel sink with mixer tap and an excellent selection of high and low-level cupboards, shelves and drawers provide plenty of practical storage.

Alongside the galley is a fully upholstered L-shaped dinette, offering a comfortable space for dining and relaxing. When additional sleeping accommodation is required, it converts into a full-size double bed, taking the boat's accommodation to four berths, with useful storage incorporated underneath.

The inviting saloon is designed with comfort in mind and features two leather-style reclining chairs with matching footstools, a media unit with Smart TV and a selection of shelving and cupboards. A Refleks diesel stove creates a cosy focal point for colder days, while the overhead skylight allows natural light to flood into the living space.

Moving forward, the walk-through bathroom is smart and practical, featuring a ceramic pump-out toilet, full-size shower with twin sliding doors and a wash basin set over a vanity unit, along with additional storage.

At the bow, the bedroom provides a peaceful retreat with a full-size double bed and storage beneath. A double wardrobe, corner storage unit and high-level cupboards offer plenty of space for clothing and belongings, making the boat well suited to longer stays or extended cruising.

Outside, the fully upholstered cruiser stern is a real highlight, providing sociable seating for up to six people beneath a full pram cover. The stern is equipped with a Morse controller, bow thruster controller and two 230V sockets, with four removable deck boards providing access to the engine bay and weed hatch. A cratch cover is also fitted to the bow for additional protection and usable covered space.

Powered by a Canaline 42hp engine with digital control panel and PRM 150 gearbox, the boat has only brand-new commissioning hours. Approximately 800W of solar provides useful off-grid capability, while Maxview 5G Wi-Fi is already included, adding another modern convenience whether you're cruising, relaxing aboard or working remotely.

With its excellent specification, comfortable four-berth accommodation and brand-new, unregistered status, this 2026 narrowboat offers the opportunity to enjoy a completely fresh boat from day one. Whether you're looking for extended cruising, leisure use or a comfortable home from home on the waterways, this is one not to be missed.

Optional upgrade: The windows can be upgraded to double glazing for £1,500.
